

## ELECTRIC FLOOR HEATING SYSTEM

### **FAST FACTS:**

---

- Heats tile, stone and laminate/engineered wood floors
- Suitable for wet environments such as showers and steam rooms
- Larger kits available (up to 120 ft<sup>2</sup> in 120 V and 240 ft<sup>2</sup> in 240 V)
- Redesigned, thinner cold-lead and factory splice
- New mid-point marker on heating cable
- Completely redesigned, easy-to-use cable guide
- Zero EMF (electromagnetic field) cable design
- Industry-leading customer service
- 25-Year Warranty

### **APPLICATIONS:**

---

Nuheat Cable is an ideal room specific heat source option for kitchens, bathrooms and other spaces where on-site adjustments are required.

### **HOW TO ORDER & PURCHASE NUHEAT CABLE :**

---

1. Calculate the square footage of the heated area (measuring instructions available at [www.nuheat.com/customer-care/how-to-measure](http://www.nuheat.com/customer-care/how-to-measure))
2. Determine the proper cable kit for your project
3. Fax a purchase order to NUHEAT at 1.604.529.4404
4. If unsure which floor heating solution is best, contact the NUHEAT Customer Care Team at [res.customercare@nvent.com](mailto:res.customercare@nvent.com) and a representative will recommend the appropriate cable kits and controls for your project

**\* You can also complete a quote request via our online quote request tool available at [www.nuheat.com/customer-care/customer-quote](http://www.nuheat.com/customer-care/customer-quote)**

## NUHEAT CABLE SPECS:

---

- Available in 120 V and 240 V
- Thinner cold-lead and factory splice
- Energy efficient at 12 W/ft<sup>2</sup> (41 BTU/ft<sup>2</sup>)

## NUHEAT CABLE ELECTRICAL DETAILS:

---

- Largest 120 V kit covers 120 ft<sup>2</sup> and largest 240 V kit covers 240 ft<sup>2</sup>, producing 12 W/ft<sup>2</sup> (41 BTU/ft<sup>2</sup>)
- NUHEAT controls are equipped with ground fault circuit interrupter (G.F.C.I.) protection
- All Nuheat Thermostats come with a floor sensing probe
- Electrical installation instructions are available at [nVent.com/NUHEAT](http://nVent.com/NUHEAT)

## INSTALLING THE NUHEAT CABLE

---

Install Nuheat Cable

Apply Self-Leveler

Trowel Thinset and Install Tile

A professional contractor (tile or electrical) installs Nuheat Cable onto the subfloor.

A certified electrician connects the system to your household wiring.
