

Residential Safety and Comfort from nVent RAYCHEM and NUHEAT

CONNECT AND PROTECT

nVent residential products ensure the safety, comfort and reliability of your home.

- 1 Floor Heating**
Transform your living space with the comfort and luxury of radiant floor heat. Spot heat individual spaces or heat the entire home.
- 2 Perimeter Heat**
Mitigate heat loss and condensation buildup on curtain walls by installing in-floor perimeter heat. Unlike baseboard heaters, floor heat is silent, invisible, maintenance-free, and requires no interior space.
- 3 Roof & Gutter De-Icing**
Prevents ice dams and icicles, protecting your roof and gutters from costly damage. Also available in the concealed RIM system (3A).
- 4 Surface Snow Melt**
Keeps your driveways, walkways, and patios free of ice and snow for year round use.

- 5 Pipe Freeze Protection**
Protects pipes from bursting and prevents water damage.
- 6 Countertop Heat**
Brings warmth to cold counters to create comfortable gathering spaces for family and friends.
