

# NVENT NUHEAT AND HYDRONIC HEAT

## CHANGE THE WAY YOU HEAT

nVent NUHEAT systems offer compelling advantages in conjunction with or in place of hydronic radiant heat systems

	ELECTRIC	HYDRONIC
Heating Zones	System added per room as required 	System added to a whole house 
Responsiveness	Heats up in minutes (aka on-demand zone heating) 	Heats up in hours 
Installation Costs	Low installed cost. Parts, labor and site preparation all have lower costs. 	High installed cost 
Installation Time	Short 	Lengthy 
Installation Complexity	Simple 	Complex 
Maintenance Costs	Maintenance free! 	Maintenance required for boilers, valves, pumps, pipes, etc. Especially if system is shut down on a seasonal basis. 
Auxiliary Equipment Required	No 	Yes 
Programmability		
Efficiency		
Heating Uniformity		
Floor Height	Minimizes floor height buildup. Can be added for renovations and for new construction. nVent NUHEAT floor heating mats are only 1/8" thick. 	Adds significant height to floors. Typically new construction only. 
Heating Coverage	nVent NUHEAT Custom Mats provide 100% heat coverage for any room. 	Cannot heat hard to reach areas in a home
