

NVENT NUHEAT SIGNATURE THERMOSTAT

Floor Heating For The Connected Home

NVENT NUHEAT SIGNATURE THERMOSTAT: Floor Heating For The Connected Home

The nVent NUHEAT Signature thermostat is the most connected floor heating control available today. It offers all of the functionality of the nVent NUHEAT Home thermostat, plus more! Homeowners can remotely monitor, control, and program their nVent NUHEAT floor heating system via iOS and Android apps or via the MyNuheat.com web portal. The Signature thermostat works with popular smart home devices and home automation systems and it can display a live local weather forecast.

“Alexa, turn off my
floor heating system.”

“Alexa, make my
living room warmer.”

WORKS WITH AMAZON ALEXA®

The Signature thermostat can be controlled using any Alexa device including Amazon Echo, Echo Dot, or Echo Plus.

“Ok Google, what’s my floor temperature?”

“Ok Google, turn my floor heating to Away Mode.”

WORKS WITH THE GOOGLE ASSISTANT®

Control the Signature thermostat with any Google Assistant® enabled device such as Google Home® and Google Home Mini®.

Works with
IFTTT

IFTTT®

The Signature thermostat is part of this popular free service that enables you to automatically trigger actions for your floor heating system based on other apps, web services and devices.

Automatically turn off the floor heating system every time you lock your front door or get a text message whenever your floor drops below a certain temperature. All this is possible via IFTTT.

Look for Nuheat applets in the IFTTT app or website!

Signature Thermostat

The floor heating industry's first WiFi-enabled, programmable thermostat.
