Nuheat has a team of dedicated experts offering full-service project management and premium solutions. Differentiate your project with the luxurious comfort of Nuheat while taking control of cost, timeline, and installation!

WHY CHOOSE NUHEAT TO SEPARATE YOUR PROJECT FROM THE CROWD?

- Full-service project management from planning to completion
- Faster installation with consistent results using pre-configured Nuheat Mats that reduce labour and installer error
- Elite multi-unit design specialists deliver accurate estimates and plans optimized for comfort, scope and cost
- Guaranteed pricing locked in during design to protect CapEx and eliminate surprises
- In-house engineering and technical team for spec support and live troubleshooting
- Pre-construction installer training and certification ensures optimal installation and waste reduction
- Flexible product release schedule managed on a unit-by-unit basis to align with evolving project requirements
- Premium products engineered for long-term performance
- Integration with automation and smart home systems for efficiency and master control*
- 25-Year Total Care Warranty covers all aspects of product, installation and trades coordination**
