Nuheat  
Element thermostat

## FLOOR HEATING FOR THE CONNECTED HOME

The Nuheat Conductor and Signature thermostats are wifi-enabled, can be controlled remotely via iOS® or Android® apps, and are compatible with several popular smart home and home automation systems. The Conductor thermostat works with Apple Home.

Custom integrations are supported via Open API integration technology, making both connected Nuheat thermostats a future-proof addition to any connected home ecosystem.

Visit [nuheat.com/connected-home](https://nuheat.com/connected-home) for more information.

Nuheat, Signature and Conductor are trademarks of Chemelex Electric plc and/or its subsidiaries. All other trademarks are the property of their respective owners and are used under license if applicable.

## NUHEAT CONDUCTOR

---

The Nuheat Conductor Thermostat is the all-new control platform that builds upon the legacy of the Nuheat Signature.

Dressed in a subtle and sophisticated white tuxedo, Conductor features a vanishing, touch-sensitive display, enabling core functions on-device and presenting a sleek, all-white exterior when not in use.

## NUHEAT CONDUCTOR BENEFITS

---

- Wifi-enabled with iOS® and Android® apps
- Bluetooth-enabled for easy setup without wifi
- Vanishing, touch-sensitive display
- Fully programmable
- Basic functions on device, all functions in app
- Works with popular smart home systems, visit [nuheat.com/connected-home](https://nuheat.com/connected-home) for more information
- 3-year warranty

## SPECIFICATIONS

---
