# NUHEAT PERIMETER HEATING

## Change the way you heat

nVent NUHEAT electric radiant heating systems are ideal for Perimeter Heat applications. NUHEAT systems offer an invisible alternative to baseboard heaters for heat loss replacement on curtain walls.

Perimeter Heat with nVent NUHEAT

### Benefits of Perimeter Heating with NUHEAT include:

#### HEAT LOSS REPLACEMENT

Adding perimeter heat ensures more heat is retained in the room and around a window.

#### CONTROL WINDOW CONDENSATION

NUHEAT Mats can be installed along the curtain wall, beneath the finished floor, to control window condensation and ensure amazing views year-round.

#### REPLACE BASEBOARD HEATERS

Don't allow unsightly baseboard heaters to clutter up your views. NUHEAT systems result in a clean look while providing more heat output and improved efficiency.

#### MAINTENANCE-FREE

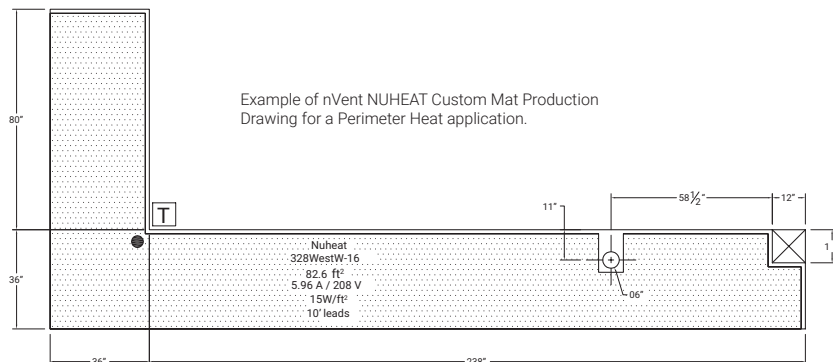

NUHEAT systems do not require ductwork, boilers, valves, or any other additional equipment. NUHEAT Mats are covered by a 25-year warranty and require zero maintenance.

#### SILENT & INVISIBLE

NUHEAT Mats are installed beneath the finished floor, offering a silent and invisible perimeter heat solution.

Perimeter Heat with Baseboards
